

Varioflex B - 41936

Special ladder that ensures safe standing even when working on uneven ground, on steps and overhangs.

Product description

- Special ladder that ensures safe standing even when working on uneven ground, on steps and overhangs.
- Continuous adjustment to the millimetre. Each individual stile of the ladder locks securely by the turn of a handle.
- Stile dimensions: 60 x 24 mm.
- Rungs and stiles made from extruded aluminium sections.
- High strength, non-twist rung/stile connections.
- Replaceable 2-component plastic end caps ensure positioning without risk of slipping and at the same time provide firm seating in the stile.

Hints and special features

Ideal for applications in difficult terrain.

Complies with EN 131 Professional.
