

# Height-adjustable work platform – extension platforms and chassis

Work safely at heights.

## Product description

- Choose between a platform without an extension platform, with a fixed extension platform and with a folding extension platform. The options with additional platforms will by default have a chassis with pull-out stabilisers and height adjusters.
- The swivel castors provide great mobility, and the additional slide-out stabilisers and levelling feet on the extension platform ensure stability.
- The overhang on the optional extension platform (fixed or foldable) offers even more flexible access.
- Two people can work on the platform simultaneously thanks to its generous size and high load capacity of 300 kg – the same goes for the optional extension platform.

## Hints and special features

If the existing modular system does not meet your requirements, we can also offer you customised solutions tailored to your needs.

Standard applied: DIN EN ISO 14122.

## Product features

Platform height
