

Battery Storage Box

For the storage of lithium batteries, such as power tool batteries and bicycle batteries. For industry, trade, bicycle dealers and private households. There is no easier way to protect yourself from a battery fire. For one or more batteries.

Product description

- Maximum fire protection and easy handling thanks to the fireproof, one-piece interior construction, which also helps to avoid incorrect use.
- Best test results in explosion and real fire tests according to TÜV NORD for ratings up to 814 Wh. No escape of flames or splinters. The temperature of the surface of the box remains below 200°C.
- The interior fittings are absorbent, electrically non-conductive and dust-free. It is flexible and thus adapts to the contours of the batteries.
- Compact aluminium box with low weight. Lockable comfort flap fasteners, three sturdy sprung drop handle
- Not type-approved for transport according to ADR or IATA. For domestic use and use by skilled workers as per the relevant trade regulation (ADR 1.1.3.1 c).
