

Tanker ladder basic module

Safe access for servicing, repairing, filling and cleaning road tankers and tank wagons.

Product description

- Safe access for servicing, repairing, filling and cleaning road tankers and tank wagons.
- Fields of application: Food industry, chemical and petrochemical industry, and rail vehicles.
- Possible platform heights from 2,770 mm to 4,100 mm.
- Simple height adjustment in 280 mm increments by means of two-part push-up ladder and a cable winch.
- Double-sided handrail on the push-up ladder for maximum safety when climbing.
- Easily moved by hand via chassis with two fixed and swivel castors.
- The many different ways of combining modules make our de-icing platform exceptionally versatile. You can simply combine several base modules with expansion modules to create the platform you want.
- Ladder with rungs 30 mm deep made from aluminium extrusion.
- Round or rectangular guardrail.
- Different chassis versions available depending on requirements.
- Optionally with 600 mm wide platform in three

different lengths.

- Platform surface Serrated aluminium.

Hints and special features

If the existing modular system does not meet your requirements, we can also offer you customised solutions tailored to your needs.

Product features

Coating natural	Connection Stile-Rung flanged	Load capacity max. 150 kg	Material Aluminium	Pitch rung/tread 265 mm
Transport dimensions 3.415 mm × 1.020 mm × 350 mm	Tread depth 30 mm	Type rung/tread serrated	Warranty 10 years	Weight 52.3 kg
