

De-icing platform base module

The ZARGES de-icing platform allows personnel to work safely at the height of a truck's roof so that they can remove ice and snow from the roof or perform other maintenance work.

Product description

- Easy to construct thanks to its high level of pre-assembly.
- Version with treads and platform made from steel grid.
- The platform height of 3.0 metres allows work to be performed at approx. 4.80 metres.
- The access side can optionally be equipped with a swing door to provide a fall protection device.
- Can be extended by 2.0 metres at any time with the expansion module (Item No. 43026).
- Optional access stairs (Item No. 43027) available.
- Standard applied: DIN EN ISO 14112.
