

# De-icing platform expansion module

Depending on the model, the extension modules for ZARGES de-icing platforms add another 6 or 2 metres to the length of the base platform.

## Product description

- The many different ways of combining modules make our de-icing platform exceptionally versatile. You can simply combine several base modules with expansion modules to create the platform you want.
- Easy to construct thanks to its high level of pre-assembly.
- Version with treads and platform made from steel grid.
- The platform height of 3.0 metres allows work to be performed at approx. 4.80 metres.
- The base module (item no. 43025) can be combined with an additional extension module (item no. 43026) to add 2 meters, or with item no. 43030 to add 6 meters. A second stair module (item no. 43027) is also available.
- Standard applied: DIN EN ISO 14122.

## Product features

Warranty	10 years
----------	----------

## Product variants

	43026	43027	43030
Load capacity	-	max. 150 kg	-
Overall span	-	3091 mm	-
Platform height	-	3.000mm	-
Platform width	-	800 mm	-
Tread width	-	800 mm	-
Version	Extension module 2,000 mm	Second stair module	Extension module 6,000 mm
