

AETHOR 2.0

The AETHOR self-retracting lifeline complies with EN 360:2002 and offers excellent freedom of movement while keeping the fall distance short. Automatic rope retraction ensures that only the required length of rope is released, keeping the arrest distance as short as possible in all situations, whether overhead or horizontal. This device is certified for use in situations where the anchor point is at floor level (fall factor 2) and is also suitable for people weighing up to 140 kg. It is 2 metres long.

Product description

- Fall factor 2 certified.
- Length 2 m.
- Equipped with energy absorber according to EN 355.
- Robust, yet compact and lightweight, weighing just 800 grammes.
- Robust thermoplastic housing.
- Equipped with snap hook (full body harness side) and triple locking gate carabiner (anchor point side).
- Swivel and connector for connection to anchor point.
- Swirl and fall indicator on snap hook.
- Edge-suitable RfU 11.060 (max. 100 kg)
- Suitable for people weighing up to 140 kg (fall factor 0).
