

K 470 - Battery Case

Universal

Missing translation

Product description

- Maximum fire protection and easy handling thanks to the fireproof, one-piece interior construction, which also helps to avoid incorrect use.
- Hazardous goods packaging certified for lithium batteries UN 3480, UN 3481, UN 3090, UN 3091.
- Suitable for transporting prototypes, damaged or defective batteries, critically defective batteries and batteries for disposal and recycling.
- Also passed fire tests involving critically defective batteries with nominal capacity of over 1,384 Wh (request specification from ZARGES).
- High dielectric strength, i.e. also suitable for high-performance batteries, such as those used in power tools.
- Padding and absorbent material are non-flammable, non-conductive and dust-free.
- Maximum outside temperature below 100°C, no flames or splinters escaping in the event of an accident.
- The box is also perfect for the storage of lithium-ion batteries.
- Increased thermal protection thanks to additional heat shields.
- Made in Germany

Hints and special features

Approved hazardous goods packaging cannot be taken back.

Product features

Colour of the stacking corners Natural aluminium	Corner beading Yes	Fasteners Comfort fasteners	Handles Sprung drop handles	Integrated wheels No
Internal dimensions L x W x H x x	Material Aluminium	Material of the stacking corners Aluminium	Max. gross weight dangerous goods permission 71 kg	Number of handles 2
Outside dimensions max. L x W x H 740 mm x 510 mm x 410 mm	Peripheral beading Yes	Stacking corners Yes	Usable dimensions L x W x H 585mm x 285mm x 215mm	Warranty 10 years
Weight 25.3 kg
