

# Height-adjustable work platform – base module - 40060001

Work safely at heights.

## Product description

- The clearance of up to 4,000 mm allows you to reach great heights.
- The overhang on the optional extension platform (fixed or foldable) offers even more flexible access.
- The swivel castors provide great mobility, and the additional slide-out stabilisers and levelling feet on the extension platform ensure stability.
- Choose between a fixed ladder, a push-up ladder and stairs. All access options can be adapted in height to allow users to climb up to the platform effortlessly.
- Two people can work on the platform simultaneously thanks to its generous size and high load capacity of 300 kg – the same goes for the optional extension platform.

## Hints and special features

If the existing modular system does not meet your requirements, we can also offer you customised solutions tailored to your needs.

Standard applied: DIN EN ISO 14 122.

## Product features

Model	M
Platform height	1.200mm - 2.900mm
Platform length	2880 mm
Platform width	1240 mm
Standards	NF EN ISO 14122-4
