

Height-adjustable work platform – base module – 40060016

Work safely at heights.

Product description

- Choose between variants without extension platform, with fixed extension platform and with folding extension platform. The options with an additional platform will by default have a chassis with pull-out stabilisers and height adjusters.
- The overhang on the optional extension platform (fixed or foldable) offers even more flexible access.
- The swivel castors provide great mobility, and the additional slide-out stabilisers and levelling feet on the extension platform ensure stability.
- Two people can work on the platform simultaneously thanks to its generous size and high load capacity of 300 kg – the same goes for the optional extension platform.

Hints and special features

If the existing modular system does not meet your requirements, we can also offer you customised solutions tailored to your needs.

Standard applied: DIN EN ISO 14 122.
