

K 470 universal container - 40846

The K 470 product range offers an exceptional selection of 25 standard sizes. Their capacity ranges from 13 to 829 litres. Customised sizes are also available by request.

Product description

- Compact and secure storage and transport thanks to stacking corners made of cast aluminium.
- Protection against dust and moisture thanks to a foam gasket that runs all the way around the lid, optionally available with protection class IP 65 or IP 67.
- Large, ergonomic handles and closures facilitate handling, even when the user is wearing gloves.
- Resistant to heat and cold, tested from -54°C to $+80^{\circ}\text{C}$.
- A whole host of quality features ensure a long service life, including fully welded profiles, stainless-steel hinges, beading and solid rivets. All K 470 models with base dimensions of 750 x 550 mm and above are made of extra-thick 1.5 mm sheet metal to provide added stability.
- 25 standard sizes, customised sizes on request.
- Lid fitted with stainless-steel hinge strip, two lid straps and peripheral foamed seal.
- Stacking corners made of cast aluminium ensure secure stacking.
- High stability thanks to 3 fully welded aluminium profile frames.

- UN approval for the transportation of hazardous goods possible at additional charge.
- ZARGES Comfort Handles for ergonomic handling.
- Depending on the size, all-round beading and corner beads are added for extra dimensional stability.
- Snap fasteners: can be secured with a plug lock, lead seals, spring anti-opening feature or a padlock (max. shackle thickness 6 mm).
- Ergonomic and durable Comfort fasteners that can last at least 20,000 use cycles.
- Extra-thick aluminium sheets (1.5 mm) are used on all K 470 containers with base dimensions 750 x 550 mm and above.

Hints and special features

Clearance dimensions approx. 30 mm less than inside dimensions (length and width). Special sizes on request.

IP 65 rating available at add charge.
