

## De-icing platform second step module - 43027

The extension modules for the ZARGES de-icing platform add a second step.

## **Product description**

- The many different ways of combining modules make our de-icing platform exceptionally versatile. You can simply combine several base modules with expansion modules to create the platform you want.
- Easy to construct thanks to its high level of preassembly.
- Version with treads and platform made from steel grid.
- The platform height of 3.0 metres allows work to be performed at approx. 4.80 metres.
- Can be combined with the base module (order no. 43025), or a 2 metre extension module (order no. 43026) or 6 m extension module (order no. 43030).
- Standard applied: DIN EN ISO 14122.

## Product features

Load capacity	Overall span	Platform height	Platform width	Tread width
max. 150 kg	3091 mm	3.000mm -	800 mm	800 mm
Version	Warranty			
Second step	10 years
