DATA SHEET

Tanker ladder basic module

Safe access for maintenance, filling or cleaning of tankers and containers.

PRODUCT DESCRIPTION

- Safe access for maintenance, filling or cleaning of tankers and containers.
- Applications: Food industry, chemical and petrochemical industries, and rail vehicles.
- Possible platform heights from 2,770 mm to 4,100 mm.
- Simple height adjustment in 280 mm increments by means of two-part push-up ladder and a cable winch.
- Double-sided handrail on the push-up ladder for maximum safety when climbing.
- Easily moved by hand via chassis with two fixed and swivel castors.
- A variety of configuration options make our tanker ladders extremely flexible. Combine the base module with the required and optional modules of your choice.
- Ladder with rungs 30 mm deep made from aluminium extrusion.
- Round or rectangular guardrail.
- Different chassis versions available depending on requirements.
- Optionally with 600 mm wide platform in three different lengths.
- Platform surface: serrated aluminium.

HINTS AND SPECIAL FEATURES

If the existing modular system does not meet your requirements, we can also offer you customised solutions tailored to your needs.
