

Single-stile ladder with integrated arrester rail

Product description

- Non-slip perforated rungs with end stops. Welded to the arrester rail.
- Jointing pieces between the individual parts of the ladder.
- Ladder width 370 mm.

Hints and special features

If the spatial conditions on-site do not permit the use of double-stile fixed ladders, it is also possible to use so-called single-stile ladders, on which the fall arrester system simultaneously forms the ladder stile (located centrally).
