

Horizontal stabiliser docks

Brace-free design with access to the vertical stabilisers, and an ergonomically angled working surface. The dock need not be moved for tail-in docking procedures.

Product description

- Fixed or with chassis for mobile applications.
- With fixed or adjustable height.
- Outriggers have height adjusters to compensate for uneven ground.
- Sliding panels and bumpers.
- A variety of railing options, including fixed or height-adjustable railings, foldable railing cages and fall protection devices.
- Optimum adaptation to contours with high variability.
