

Battery Case Universal

Product description

- Maximum fire protection and easy handling thanks to the fireproof, one-piece interior construction, which also helps to avoid incorrect use.
- Hazardous goods packaging certified for lithium-ion batteries UN 3480, UN 3481.
- Suitable for transporting prototypes, damaged or defective batteries, critically defective batteries and batteries for disposal and recycling.
- Maximum outside temperature below 100°C, no flames or splinters escaping in the event of an accident.
- High dielectric strength, i.e. also suitable for high-performance batteries, such as those used in power tools.
- Padding and absorbent material are non-flammable, non-conductive and dust-free.
- The box is also perfect for the storage of lithium-ion batteries.
- Increased thermal protection thanks to additional heat shields.
- Made in Germany

Hints and special features

Usable dimensions approx. 415 x 215 x 95 mm.
